GC55 EARLY ENTRY/GREEN
SMALL PUSH SAW

THE PERFECT COMBINATION FOR UNSURPASSED PERFORMANCE

With a compact, light-weight design and the option of either gas or electric, the Norton Clipper GC55 early entry saw is ideal for cutting green, cured or decorative concrete as well as expansion joints. The low, wide profile of the frame along with the front mount blade, both contribute to producing a more disciplined cut.

- Multi-functional for a variety of applications
- Compact, light weight design
- Powerful 5.5hp engine

Norton GMax is the ideal companion blade to the GC55. Critical to results of green concrete cutting. The anchor slot core technology reduces vibration for straighter, cleaner cuts. The diamond content and bond combination allow a smooth and faster cut with long life in abrasive materials with hard aggregates.

Anchor Slot Gullets

**NORTON CLIPPER GC55
EARLY ENTRY/GREEN CONCRETE SAW**

Reduce your saw inventory by introducing your fleet to the new Norton Clipper GC55 multipurpose concrete saw. With a compact, light-weight design the GC55 is ideal for cutting green, cured or decorative concrete as well as expansion joints. The low, wide profile of the frame along with the front center mount blade, both contribute to producing a more disciplined cut. With features such as 5.5hp Honda engine, 10" blade capacity allowing a 3-1/2" depth of cut and patented concave wheel design for smooth operation and straighter cuts, and the robust reinforced frame help make the GC55 the best single saw for many applications.

FEATURES & BENEFITS

- Compact design for easy transport and lifting
- Patented concave wheels allow for smoother, straighter cuts
- Front line blade mount keeps blade in the cut
- 10" blade capacity for 3-1/2" depth cut
- 5.5 hp Honda engine for strong, curable performance

**NORTON GMAX
DIAMOND BLADE**

Increasing the performance of the Norton Clipper GC55 is the Norton GMax diamond blade. Having a thicker core to resist flexing provides a straighter and faster cut for less spalling. The anchor slot gullet technology increases productivity by reducing vibrations for a smoother cut while keeping the blade cool extending life. Other GMax blades are also available in hard, medium/hard and medium/soft aggregate sizes as well.

FEATURES & BENEFITS

- Thicker core resists flexing or bending
- Premium bond and diamond for faster and smoother cuts
- Anchor slot gullets reduce vibrations for smoother cuts / long life
