

Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations And According To The Hazardous Products Regulation (February 11, 2015).

Date of Issue: 09/27/2018 Version: 1.0

## **SECTION 1: IDENTIFICATION**

1.1. Product Identifier Product Form: Mixture

Product Name: LATICRETE® 125 Tri Max 1.2. Intended Use of the Product

Adhesive

1.3. Name, Address, and Telephone of the Responsible Party

Company Company

LATICRETE International LATICRETE Canada ULC

1 Laticrete Park, N PO Box 129, Emeryville, Ontario, Canada

Bethany, CT 06524 NOR-1A0

T (203)-393-0010 www.laticrete.com

1.4. Emergency Telephone Number

Emergency Number : For Chemical Emergency Call CHEMTREC day or night

Within USA and Canada: 1.800.424.9300

Mexico: 1.800.681.9531

Outside USA and Canada: 1.703.527.3887 (collect calls accepted)

#### **SECTION 2: HAZARDS IDENTIFICATION**

#### 2.1. Classification of the Substance or Mixture

#### **GHS-US/CA Classification**

Eye Irrit. 2A H319
Carc. 1 H350
Repr. 2 H361
STOT RE 1 H372

Comb. Dust

Full text of hazard classes and H-statements: see section 16

## 2.2. Label Elements

**GHS-US/CA Labeling** 

Hazard Pictograms (GHS-US/CA)

Signal Word (GHS-US/CA)

: Danger

Hazard Statements (GHS-US/CA) : May form combustible dust concentrations in air.

H319 - Causes serious eye irritation.

H350 - May cause cancer.

H361 - Suspected of damaging fertility or the unborn child.

H372 - Causes damage to organs through prolonged or repeated exposure.

**Precautionary Statements (GHS-US/CA)**: P201 - Obtain special instructions before use.

P202 - Do not handle until all safety precautions have been read and understood.

P260 - Do not breathe vapors, mist, or spray.

P264 - Wash hands, forearms, and other exposed areas thoroughly after handling.

P270 - Do not eat, drink or smoke when using this product.

P280 - Wear protective gloves, protective clothing, and eye protection.

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing.

P308+P313 - If exposed or concerned: Get medical advice/attention.

P314 - Get medical advice/attention if you feel unwell.

09/27/2018 EN (English US) 1/11

Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations And According To The Hazardous Products Regulation (February 11, 2015).

P337+P313 - If eye irritation persists: Get medical advice/attention.

P405 - Store locked up.

P501 - Dispose of contents/container in accordance with local, regional, national,

territorial, provincial, and international regulations.

**Supplemental Information** 

: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Proper grounding procedures to avoid static electricity should be followed. Prevent dust accumulation (to minimize explosion hazard). Avoid generating dust.

#### 2.3. Other Hazards

Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

#### 2.4. Unknown Acute Toxicity (GHS-US/CA)

No data available

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1. Substance

Not applicable

#### 3.2. Mixture

| Name  | Product Identifier     | % *     | GHS Ingredient Classification             |
|---|------------------------|---------|---|
| Copolymer of vinyl acetate and ethylene       | (CAS-No.) Not assigned | 10-30   | Comb. Dust                                |
| with mineral additives and protective colloid |                        |         |   |
| Limestone                                     | (CAS-No.) 1317-65-3    | 10-30   | Not classified                            |
| Styrene-butadiene copolymer                   | (CAS-No.) 9003-55-8    | 10-30   | Comb. Dust                                |
| Cement, alumina, chemicals                    | (CAS-No.) 65997-16-2   | 7-13    | Eye Irrit. 2A, H319                       |
| Carbon black                                  | (CAS-No.) 1333-86-4    | 7-13    | Carc. 2, H351                             |

Full text of H-phrases: see section 16

## **SECTION 4: FIRST AID MEASURES**

### 4.1. Description of First-aid Measures

**General:** Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

**Inhalation:** Using proper respiratory protection, move the exposed person to fresh air at once. Encourage exposed person to cough, spit out, and blow nose to remove dust. Immediately call a poison center, physician, or emergency medical service.

**Skin Contact:** Remove contaminated clothing. Immediately drench affected area with water for at least 15 minutes. If exposed or concerned: Get medical advice/attention.

**Eye Contact:** Immediately rinse with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists.

Ingestion: Rinse mouth. Do NOT induce vomiting. Obtain medical attention.

## 4.2. Most Important Symptoms and Effects Both Acute and Delayed

**General:** May cause cancer. Suspected of damaging fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure. Causes serious eye irritation.

Inhalation: Dust may be harmful or cause irritation.

09/27/2018 EN (English US) 2/11

<sup>\*</sup>Percentages are listed in weight by weight percentage (w/w%) for liquid and solid ingredients. Gas ingredients are listed in volume by volume percentage (v/v%).

Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations And According To The Hazardous Products Regulation (February 11, 2015).

Skin Contact: Prolonged exposure may cause skin irritation. May cause an allergic reaction in sensitive individuals.

Eye Contact: Contact causes severe irritation with redness and swelling of the conjunctiva.

**Ingestion:** Ingestion may cause adverse effects.

**Chronic Symptoms:** May cause cancer. Suspected of damaging fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure.

### 4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed

If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

#### SECTION 5: FIRE-FIGHTING MEASURES

## 5.1. Extinguishing Media

**Suitable Extinguishing Media:** Water spray, fog, carbon dioxide (CO<sub>2</sub>), alcohol-resistant foam, or dry chemical. Use extinguishing media appropriate for surrounding fire.

Unsuitable Extinguishing Media: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

### 5.2. Special Hazards Arising From the Substance or Mixture

Fire Hazard: Combustible Dust.

**Explosion Hazard:** Dust explosion hazard in air.

Reactivity: Hazardous reactions will not occur under normal conditions.

## 5.3. Advice for Firefighters

Precautionary Measures Fire: Exercise caution when fighting any chemical fire.

**Firefighting Instructions:** Use water spray or fog for cooling exposed containers.

**Protection During Firefighting:** Do not enter fire area without proper protective equipment, including respiratory protection. **Hazardous Combustion Products:** Toxic fumes may be released. Irritating fumes. Formaldehyde. Hydrocarbons. Nitrogen oxides.

Other Information: Risk of dust explosion.

#### **Reference to Other Sections**

Refer to Section 9 for flammability properties.

### **SECTION 6: ACCIDENTAL RELEASE MEASURES**

## 6.1. Personal Precautions, Protective Equipment and Emergency Procedures

**General Measures:** Do not get in eyes, on skin, or on clothing. Do not breathe dust. Do not handle until all safety precautions have been read and understood. Avoid generating dust. Remove ignition sources. Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking.

## 6.1.1. For Non-Emergency Personnel

Protective Equipment: Use appropriate personal protective equipment (PPE).

**Emergency Procedures:** Evacuate unnecessary personnel.

## 6.1.2. For Emergency Personnel

**Protective Equipment:** Equip cleanup crew with proper protection.

**Emergency Procedures:** Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area.

### 6.2. Environmental Precautions

Prevent entry to sewers and public waters.

#### 6.3. Methods and Materials for Containment and Cleaning Up

**For Containment:** Contain solid spills with appropriate barriers and prevent migration and entry into sewers or streams. Avoid generation of dust during clean-up of spills.

**Methods for Cleaning Up:** Use explosion proof vacuum during cleanup, with appropriate filter. Do not mix with other materials. Vacuum clean-up is preferred. If sweeping is required use a dust suppressant. Use only non-sparking tools. Clean up spills immediately and dispose of waste safely. Contact competent authorities after a spill.

#### 6.4. Reference to Other Sections

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

## **SECTION 7: HANDLING AND STORAGE**

### 7.1. Precautions for Safe Handling

**Additional Hazards When Processed:** Accumulation and dispersion of dust with an ignition source can cause a combustible dust explosion. Keep dust levels to a minimum and follow applicable regulations.

09/27/2018 EN (English US) 3/11

Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations And According To The Hazardous Products Regulation (February 11, 2015).

**Precautions for Safe Handling:** Do not breathe dust. Do not get in eyes, on skin, or on clothing. Avoid creating or spreading dust. Keep away from heat, sparks, open flames, and hot surfaces. No smoking. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

**Hygiene Measures:** Handle in accordance with good industrial hygiene and safety procedures.

## 7.2. Conditions for Safe Storage, Including Any Incompatibilities

**Technical Measures:** Avoid creating or spreading dust. Use explosion-proof electrical, ventilating, lighting equipment. Proper grounding procedures to avoid static electricity should be followed. Comply with applicable regulations.

**Storage Conditions:** Keep container closed when not in use. Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials. Store locked up/in a secure area.

**Incompatible Materials:** Strong acids, strong bases, strong oxidizers.

#### 7.3. Specific End Use(s)

Adhesive

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1. Control Parameters

For substances listed in section 3 that are not listed here, there are no established Exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), AIHA (WEEL), NIOSH (REL), OSHA (PEL), Canadian provincial governments.

| Limestone (1317-65-3)   |                         |   |
|-------------------------|-------------------------|---|
| USA OSHA                | OSHA PEL (TWA) (mg/m³)  | 15 mg/m³ (total dust)                                   |
|                         |                         | 5 mg/m³ (respirable fraction)                           |
| USA NIOSH               | NIOSH REL (TWA) (mg/m³) | 10 mg/m³ (total dust)                                   |
|                         |                         | 5 mg/m³ (respirable dust)                               |
| Alberta                 | OEL TWA (mg/m³)         | 10 mg/m³  |
| British Columbia        | OEL STEL (mg/m³)        | 20 mg/m³ (total dust)                                   |
| British Columbia        | OEL TWA (mg/m³)         | 10 mg/m³ (total dust)                                   |
|                         |                         | 3 mg/m³ (respirable fraction)                           |
| New Brunswick           | OEL TWA (mg/m³)         | 10 mg/m³ (particulate matter containing no Asbestos and |
|                         |                         | <1% Crystalline silica)                                 |
| Nunavut                 | OEL STEL (mg/m³)        | 20 mg/m <sup>3</sup>                                    |
| Nunavut                 | OEL TWA (mg/m³)         | 10 mg/m <sup>3</sup>                                    |
| Northwest Territories   | OEL STEL (mg/m³)        | 20 mg/m <sup>3</sup>                                    |
| Northwest Territories   | OEL TWA (mg/m³)         | 10 mg/m³  |
| Québec                  | VEMP (mg/m³)            | 10 mg/m³ (Limestone, containing no Asbestos and <1%     |
|                         |                         | Crystalline silica-total dust)                          |
| Saskatchewan            | OEL STEL (mg/m³)        | 20 mg/m <sup>3</sup>                                    |
| Saskatchewan            | OEL TWA (mg/m³)         | 10 mg/m <sup>3</sup>                                    |
| Yukon                   | OEL STEL (mg/m³)        | 20 mg/m <sup>3</sup>                                    |

|                                    |                        | exposures that result from the processing of sorptive clays)       |

## 8.2. Exposure Controls

Appropriate Engineering Controls: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Use local exhaust or general dilution ventilation or other suppression methods to maintain dust levels below exposure limits. Power equipment should be equipped with proper dust collection devices. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment. Proper grounding procedures to avoid static electricity should be followed. Ensure adequate ventilation, especially in confined areas. Use explosion-proof equipment. Ensure all national/local regulations are observed.

**Personal Protective Equipment:** Gloves. Protective clothing. Protective goggles. Insufficient ventilation: wear respiratory protection.

Materials for Protective Clothing: Chemically resistant materials and fabrics.

Hand Protection: Wear protective gloves.

Eye and Face Protection: Chemical safety goggles.

Skin and Body Protection: Wear suitable protective clothing.

**Respiratory Protection:** If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

Other Information: When using, do not eat, drink or smoke.

### **SECTION 10: STABILITY AND REACTIVITY**

- **10.1. Reactivity:** Hazardous reactions will not occur under normal conditions.
- **10.2.** Chemical Stability: Stable under recommended handling and storage conditions (see section 7).
- 10.3. Possibility of Hazardous Reactions: Hazardous polymerization will not occur.
- **10.4. Conditions to Avoid:** Direct sunlight, extremely high or low temperatures, and incompatible materials. Sparks, heat, open flame and other sources of ignition. Dust accumulation (to minimize explosion hazard).
- **10.5. Incompatible Materials:** Strong acids, strong bases, strong oxidizers.
- **10.6. Hazardous Decomposition Products:** Toxic fumes. Irritating fumes. Formaldehyde. Nitrogen oxides. Ammonia. Hydrocarbons. Hydrogen cyanide.

## **SECTION 11: TOXICOLOGICAL INFORMATION**

### 11.1. Information on Toxicological Effects - Product

Acute Toxicity (Oral): Not classified
Acute Toxicity (Dermal): Not classified
Acute Toxicity (Inhalation): Not classified
LD50 and LC50 Data: Not available
Skin Corrosion/Irritation: Not classified

**Eye Damage/Irritation:** Causes serious eye irritation. **Respiratory or Skin Sensitization:** Not classified

**Germ Cell Mutagenicity:** Not classified **Carcinogenicity:** May cause cancer.

Specific Target Organ Toxicity (Repeated Exposure): Causes damage to organs through prolonged or repeated exposure.

Reproductive Toxicity: Suspected of damaging fertility or the unborn child.

Specific Target Organ Toxicity (Single Exposure): Not classified

Aspiration Hazard: Not classified

**Symptoms/Injuries After Inhalation:** Dust may be harmful or cause irritation.

Symptoms/Injuries After Skin Contact: Prolonged exposure may cause skin irritation. May cause an allergic reaction in sensitive individuals.

Symptoms/Injuries After Eye Contact: Contact causes severe irritation with redness and swelling of the conjunctiva.

**Symptoms/Injuries After Ingestion:** Ingestion may cause adverse effects.

**Chronic Symptoms:** May cause cancer. Suspected of damaging fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure.

### 11.2. Information on Toxicological Effects - Ingredient(s)

|--|------------------|
| Bioaccumulative Potential                | Not established. |
| Silica, amorphous (7631-86-9)            |                  |
| BCF Fish 1 (no bioaccumulation expected) |                  |

**12.4. Mobility in Soil** Not available

12.5. Other Adverse Effects

Other Information: Avoid release to the environment.

## **SECTION 13: DISPOSAL CONSIDERATIONS**

#### 13.1. Waste treatment methods

**Waste Disposal Recommendations:** Dispose of contents/container in accordance with local, regional, national, territorial, provincial, and international regulations.

**Ecology - Waste Materials:** Avoid release to the environment.

## **SECTION 14: TRANSPORT INFORMATION**

The shipping description(s) stated herein were prepared in accordance with certain assumptions at the time the SDS was authored, and can vary based on a number of variables that may or may not have been known at the time the SDS was issued.

14.1. In Accordance with DOT Not regulated for transport
 14.2. In Accordance with IMDG Not regulated for transport
 14.3. In Accordance with IATA Not regulated for transport
 14.4. In Accordance with TDG Not regulated for transport

Listed on the United States TSCA (Toxic Substances Control Act) inventory

Distillates, petroleum, solvent-refined heavy paraffinic (64741-88-4)

Listed on the United States TSCA (Toxic Substances Control Act) inventory

### **SECTION 15: REGULATORY INFORMATION**

## 15.3. Canadian Regulations

## Styrene-butadiene copolymer (9003-55-8)

Listed on the Canadian DSL (Domestic Substances List)

### Limestone (1317-65-3)

Listed on the Canadian NDSL (Non-Domestic Substances List)

### Quartz (14808-60-7)

Listed on the Canadian DSL (Domestic Substances List)

## Cement, alumina, chemicals (65997-16-2)

Listed on the Canadian DSL (Domestic Substances List)

## Cellulose (9004-34-6)

Listed on the Canadian DSL (Domestic Substances List)

## Silica, amorphous (7631-86-9)

Listed on the Canadian DSL (Domestic Substances List)

## Carbon black (1333-86-4)

Listed on the Canadian DSL (Domestic Substances List)

## Distillates, petroleum, solvent-refined heavy paraffinic (64741-88-4)

Listed on the Canadian DSL (Domestic Substances List)

Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations And According To The Hazardous Products Regulation (February 11, 2015).

## SECTION 16: OTHER INFORMATION, INCLUDING DATE OF PREPARATION OR LAST REVISION

**Date of Preparation or Latest** 

Revision

: 09/27/2018

**Other Information** 

: This document has been prepared in accordance with the SDS requirements of the OSHA Hazard Communication Standard 29 CFR 1910.1200 and Canada's Hazardous Products Regulations (HPR) SOR/2015-17.

## **GHS Full Text Phrases:**

| Acute Tox. 3           | Acute toxicity (inhalation:dust,mist) Category 3               |
|------------------------|--|
| (Inhalation:dust,mist) |  |
| Acute Tox. 4           | Acute toxicity (inhalation:dust,mist) Category 4               |
| (Inhalation:dust,mist) |  |
| Acute Tox. 4 (Oral)    | Acute toxicity (oral) Category 4                               |
| Aquatic Acute 1        | Hazardous to the aquatic environment - Acute Hazard Category 1 |
| Asp. Tox. 1            | Aspiration hazard Category 1                                   |
| Carc. 1                | Carcinogenicity, Category 1                                    |
| Carc. 1A               | Carcinogenicity Category 1A                                    |
| Carc. 1B               | Carcinogenicity Category 1B                                    |
| Carc. 2                | Carcinogenicity Category 2                                     |
| Comb. Dust             | Combustible Dust   |
| Eye Dam. 1             | Serious eye damage/eye irritation Category 1                   |
| Eye Irrit. 2A          | Serious eye damage/eye irritation Category 2A                  |
| Repr. 2                | Reproductive toxicity Category 2                               |
| Skin Irrit. 2          | Skin corrosion/irritation Category 2                           |
| STOT RE 1              | Specific target organ toxicity (repeated exposure) Category 1  |
| STOT SE 3              | Specific target organ toxicity (single exposure) Category 3    |
| H302                   | Harmful if swallowed   |
| H304                   | May be fatal if swallowed and enters airways                   |
| H315                   | Causes skin irritation   |
| H318                   | Causes serious eye damage                                      |
| H319                   | Causes serious eye irritation                                  |
| H331                   | Toxic if inhaled   |
| H332                   | Harmful if inhaled   |
| H335                   | May cause respiratory irritation                               |
| H350                   | May cause cancer   |
| H351                   | Suspected of causing cancer                                    |
| H361                   | Suspected of damaging fertility or the unborn child            |
| H372                   | Causes damage to organs through prolonged or repeated exposure |
| H400                   | Very toxic to aquatic life                                     |
