

TouchstoneTM Easy-Mix Dispenser

Available with or
without heater

The Touchstone EASY-MIX Epoxy Dispenser is ideal for fabrication shops and contractors. This heavy duty, aluminum dispenser pumps out your epoxy with a precise 2 to 1 mix ratio, and the on-board heater keeps the epoxy warm in colder shops and when you need faster set times.

Designed to work with Touchstone Edge System, Touchstone Express II Flowing and Touchstone Penetrating Epoxy.

Product Information

- Pumps out your epoxy with the precise 2 to 1 mix ratio
- Heavy duty
- No mess and easy to use
- Eliminate throwing away epoxy that sets too fast
- Replacement parts also available for purchase
- Touchstone pour spouts are available for flowing and penetrating epoxies.

Additional Info

For color matches, you can use two mix cups for the epoxy and hardener to keep them separate until color match is achieved. Add **Touchstone Liquid Tints** to color-match the part A, then add the part b from the separate cup.
