# Alexa/Hey Google
## Configuration and Voice Controls

# SunStat® ConnectPlus
# SunTouch® Thermostat

Use Alexa or Hey Google to control your thermostat along with music, lighting, security cameras, locks, and more!

**works with** alexa

**works with Hey Google**

**SunTouch®**
*A WATTS Brand*

# Overview

Your ConnectPlus thermostat includes the capability to connect to the Amazon Alexa and Google Home mobile apps.

To use these features, the thermostat must be connected to the Watts Home mobile app.

---

**NOTICE**

Only the Watts Home mobile app owner account can be connected to Alexa or Google Home.

---

# Amazon Alexa Setup

After you complete these steps, you can immediately use the voice controls.

1. Connect the thermostat to the Watts Home mobile app.
2. Download the Amazon Alexa mobile app from the App Store or Google Play and create an account.
3. Select **More** then **Skills & Games.**
4. Use the Search icon to find and select **Watts Home.**
5. Select **Enable to use.**
6. Enter the email address and password for your Watts Home account.
7. Select **Discover devices.**

# Google Home Setup

After you complete these steps, you can immediately use the voice controls.

1. Connect the thermostat to the Watts Home mobile app.
2. Download the Google Home mobile app from the App Store or Google Play and create an account.
3. In the upper left, select the plus sign **(+)**, next **Set up device**, then **Works with Google**.
4. Use the Search icon to find and select **Watts Home**.
5. Enter the email address and password for your Watts Home account.

# Voice Controls
