900 × 900 × 20/41 mm 1200 × 1200 × 20/41 mm

wedi Fundo Ligno, rectangular, central drain

1200 × 900 × 20/41 mm 1600 × 900 × 20/41 mm

wedi Fundo fire protection collar

800 × 180 × 76 mm 900 × 180 × 76 mm 1000 × 180 × 76 mm

wedi Fundo Borgo, offset drain

900 × 900 × 40 mm 1000 × 1000 × 40 mm

Example of tiling with central point drain

Wide variety of design, function and size

Customisable without any invalidation of warranty

Precise predefined slope

With abP general appraisal certificate

Accessible and able to take the load of a wheelchair

Adjustable height for a variety of tile thicknesses

Particularly robust substructure structure

Very low weight

Drainage very simple to clean

Custom models possible

# Solid **foundations**, for **well-founded** reasons.

#### Technical properties of Fundo Primo / Trollo / Borgo / Nautilo

Wheelchair load-bearing from minimum tile size	50 x 50 mm
Glass mosaic from 3 mm, minimum size	20 x 20 mm
Minimum foundation height depending on the drain: horizontal drain, DN 50	130 mm
Minimum foundation height depending on the drain: horizontal drain Mini Max, DN 40	97 mm
Minimum foundation height depending on the drain: vertical drain	40 mm
Surface slope (from outer edge of Fundo floor element to outer edge of drain opening) (exception: Fundo Nautilo, 28 mm surface slope)	18 mm
Waterproof tested	1.5 bar
Fire behaviour EN 13501-1	E

#### Technical properties of Fundo Primo / Trollo / Borgo / Nautilo drains

Drainage rate Fundo drain Mini Max, horizontal, DN 40	0.54 l/s ; 32.4 l/min
Drainage rate Fundo drain, horizontal, DN 50	0.80 l/s ; 48.0 l/min
Drainage rate Fundo drain, vertical, DN 50	1.00 l/s ; 60.0 l/min
Drainage rate Fundo drain, vertical, DN 70	0.88 l/s ; 52.8 l/min

#### Technical properties of Fundo Plano | Horizontal drain (fixed in the element integrated) DN 40

Wheelchair load-bearing from minimum tile size	50 x 50 mm
Minimum foundation height	65 mm
Surface slope (from outer edge of Fundo Plano floor element to outer edge of drain opening)	≥ 2.4%
Frame with stainless steel grid (secured in the element)	136 x 136 x 8 mm
Stainless steel grid	132 x 132 mm
Extension frame	136 x 136 x 24.7 mm
Drainage rate	0.50 l/s ; 30.0 l/min

#### Technical properties of Fundo Ligno

Wheelchair load-bearing from minimum tile size	50 x 50 mm
Glass mosaic from minimum size	20 x 20 mm
Minimum foundation height depending on the drain: horizontal drain, DN 50	130 mm
Minimum foundation height depending on the drain: horizontal Riolito/Riofino drain Mini Max, DN 40	97 mm
Minimum foundation height depending on the drain: vertical drain, DN 50	40 mm
Surface slope (from outer edge of Fundo floor element to outer edge of drain opening) (exception: Fundo Nautilo, 28 mm surface slope)	18 mm
Fire behaviour DIN 4102	B1

#### Technical properties of Fundo Plano Linea | Horizontal drain (fixed in the element integrated) DN 40

Wheelchair load-bearing from minimum tile size	50 x 50 mm
Total assembly height incl. integrated drainage	70 mm
Surface slope (from outer edge of Fundo Plano Linea floor element to outer edge of drain opening)	≥ 1.19 %
Adjustment range for stainless steel covers	5 –25 mm
The Fundo Plano Linea is available with channels in the following lengths	300 to 900 mm
Drainage rate	0.40 l/s ; 24.0 l/min

#### Technical properties of Fundo Riolito & Riofino

Wheelchair load-bearing from minimum tile size	50 x 50 mm
Glass mosaic from minimum size	20 x 20 mm
Minimum foundation height depending on the drain: horizontal drain, DN 50	130 mm
Minimum foundation height depending on the drain: horizontal Riolito/Riofino drain Mini Max, DN 40	97 mm
Minimum foundation height depending on the drain: vertical drain, DN 50	50 mm
Surface slope (from outer edge of Riolito & Riofino floor element to outer edge drain opening)	15 mm
Waterproof tested	1.5 bar
Fire behaviour EN 13501-1	E

#### Technical properties of Fundo Riolito & Riofino drains

Fundo Riolito & Riofino are available with channels in the following lengths	300 to 1100 mm
Drainage rate Fundo Riolito & Riofino drain, horizontal, DN 50	0.80 l/s ; 48.0 l/min
Drainage rate Fundo Riolito & Riofino drain Mini Max, horizontal, DN 40	0.40 l/s ; 24.0 l/min
Drainage rate Fundo Riolito & Riofino drain, vertical, DN 50	1.12 l/s ; 67.2 l/min

# wedi Fundo Primo

Flush-to-floor shower element with classic point drainage

For classic point drainage in the shower, wedi Fundo Primo offers floor elements in a huge range of sizes. Whether square or rectangular, positioned in the centre of the room or in the corner, they offer the ideal solution for any space and can very easily be made into a complete shower place with the aid of the wedi building board.

#### + wedi Fundo drain

Thanks to the low installation height and waterproof security, the wedi drains are very well suited to new builds and renovations. There is a variety of different versions for vertical and horizontal designs.

#### + wedi Fundo sealing set

The sealing set to create a waterproof connection between wedi building boards or wedi Fundo and other materials not belonging to the system, e.g. screed, plasterboard, etc.

# + wedi *Tools* joint reinforcement tape

Special (self-adhesive) fabric tape to fix and bridge the protruding edges of structural panels.

#### + wedi 610

As a versatile single-component adhesive and sealant, wedi 610 is particularly well suited to creating a water-proof joint between wedi components. The combination of wedi building board and wedi 610 has an abP general appraisal certificate for the heavy-duty area.

### **Drain versions** Point drainage

1 You will find further technical drawings in the relevant assembly instructions and in the "Creation of flush-to-floor showers" brochure.

# wedi Fundo Riolito

Flush-to-floor shower element with sophisticated linear drainage

This flush-to-floor shower element is captivating with its sophisticated linear drainage. With all Riolito designs, this is positioned to the side. The exact gradient required for this is already incorporated into the floor elements.

#### + wedi 610

As a versatile single-component adhesive and sealant, wedi 610 is particularly well suited to creating a waterproof joint between wedi components. The combination of wedi building board and wedi 610 has an abP general appraisal certificate for the heavy-duty area.

#### + wedi Fundo drain

Thanks to the low installation height and waterproof security, the wedi drains are very well suited to new builds and renovations. There is a variety of different versions for vertical and horizontal designs.

#### + wedi Fundo sealing set

The sealing set to create a waterproof connection between wedi building boards or wedi Fundo and other materials not belonging to the system, e.g. screed, plasterboard, etc.

#### + wedi Fundo *Riolifo* drain covers

The high-quality covers made of brushed stainless steel complete the design demand of the wedi Fundo Riolito floor elements.

Design versions: standard, exclusive and tileable

### **Drain versions** Linear drainage

1 You will find further technical drawings in the relevant assembly instructions and in the "Creation of flush-to-floor showers" brochure.

# wedi Fundo Riofino

Flush-to-floor shower element with central linear drainage

A different kind of linear drainage – streamlined and centred. This is the wedi Fundo Riofino floor element. Sophisticated in its finish, extraordinary in design and quick and safe in its drainage, it impresses completely.

#### + wedi Fundo drain

Thanks to the low installation height and waterproof security, the wedi drains are very well suited to new builds and renovations. There is a variety of different versions for vertical and horizontal designs.

#### + wedi Fundo sealing set

The sealing set to create a waterproof connection between wedi building boards or wedi Fundo and other materials not belonging to the system, e.g. screed, plasterboard, etc.

# + wedi *Tools* joint reinforcement tape

Special (self-adhesive) fabric tape to fix and bridge the protruding edges of building boards.

#### + wedi 610

As a versatile single-component adhesive and sealant, wedi 610 is particularly well suited to creating a waterproof joint between wedi components. The combination of wedi building board and wedi 610 has an abP general appraisal certificate for the heavy-duty area.

#### + wedi Fundo *Riofino* drain covers

The high-quality covers made of brushed stainless steel complete the design demand of the wedi Fundo Riofino floor elements.

Design versions: standard, exclusive and tileable

# wedi Fundo Plauo Linea

## The thinnest complete linear system

wedi's innovation of the year is – at the same time – the thinnest complete system for floor-level showers featuring linear drainage. With the drain technology, which was already integrated in the factory, the system measures a mere 70 mm and is a special wedi highlight in bathroom renovations. Positioned very close to the wall, and featuring a short or long channel as an option, the drain gives a high-quality impression from a visual perspective and also frees up additional space for pure shower enjoyment.

#### + wedi 610

As a versatile single-component adhesive and sealant, wedi 610 is particularly well suited to creating a waterproof joint between wedi components. The combination of wedi building board and wedi 610 has an abP general appraisal certificate for the heavy-duty area.

#### + wedi Fundo sealing set

The sealing set to create a waterproof connection between wedi building boards or wedi Fundo and other materials not belonging to the system, e.g. screed, plasterboard, etc.

#### Scope of delivery:

wedi Fundo Plano Linea already has a DN 40 horizontal drain permanently integrated into the floor element. The scope of delivery also includes a height adjustable cover in  $V_2A$  brushed stainless steel and a large sealing pad.

# wedi Fundo Liguo

Flush-to-floor shower element for timber beam floors

The flush-to-floor shower element, which is just 20 mm thick on the outer edge, has been developed especially for use in old and new buildings with timber beam floors. In comparison to conventional shower elements, the Fundo Ligno is adapted to the wooden layer of the floor, meaning it can be integrated wonderfully into this – without creating further height and without any laborious levelling measures.

# wedi Fundo *Liguo* and the right system components

#### + wedi 610

As a versatile single-component adhesive and sealant, wedi 610 is particularly well suited to creating a waterproof joint between wedi components. The combination of wedi building board and wedi 610 has an abP general appraisal certificate for the heavy-duty area.

# + wedi *Tools* joint reinforcement tape

Special (self-adhesive) fabric tape to fix and bridge the protruding edges of building boards.

#### **+** wedi Fundo sealing set

The sealing set to create a waterproof connection between wedi building boards or wedi Fundo and other materials not belonging to the system, e.g. screed, plasterboard, etc.

### + wedi Subliner Dry & Flex

Flexible, crack-bridging sealant and decoupling roll made of ultra tear-resistant polyethylene foil for indoor and outdoor walls and floors. A0 and B0 areas of application.

#### + wedi Fundo drain

Thanks to the low installation height and waterproof security, the wedi drains are very well suited to new builds and renovations. There is a variety of different versions for vertical and horizontal designs.

# wedi Fundo *Plauo*

The thinnest complete system for flush-to-floor showers on the market

With the pre-integrated drain, the total system is just 65 mm flat. This innovation is second to none when it comes to renovations, where every millimetre counts. The product naturally offers all the advantages of wedi products, which have been tried-and-tested for more than 30 years – from the guaranteed 100% watertightness through to its versatile and easily implemented usage. Renovation in perfection.

#### + wedi Fundo sealing set

The sealing set to create a waterproof connection between wedi building boards or wedi Fundo and other materials not belonging to the system, e.g. screed, plasterboard, etc.

#### Scope of delivery:

wedi Fundo Plano has a horizontal drain DN 40 which is already integrated into the floor element. In addition, the product is also supplied with a drain cover in brushed stainless steel  $V_2A$  including frame extension and a sealing corner.

#### + wedi **610**

As a versatile single-component adhesive and sealant, wedi 610 is particularly well suited to creating a waterproof joint between wedi components. The combination of wedi building board and wedi 610 has an abP general appraisal certificate for the heavy-duty area.

# wedi Fundo Riolito Discreto

Optical wall drain with all the advantages of a classic floor drain

Contemporary design and completely new design options. The absolutely innovative Fundo Riolito Discreto literally tops the tried-and-tested Riolito. As a simple fixture, this clever innovation creates the illusion of a wall drain. The fixture can be easily expanded in all directions. Whether as a seat, shelf or a complete false wall - there are no limits to the design ideas with these system components.

### wedi Fundo *Riolito Discreto* and the right system components

#### + wedi 610

As a versatile single-component adhesive and sealant, wedi 610 is particularly well suited to creating a waterproof joint between wedi components. The combination of wedi building board and wedi 610 has an abP general appraisal certificate for the heavy-duty area.

#### + wedi Fundo *Plauo Linea* or wedi Fundo *Riolito*

This flush-to-floor shower element is captivating with its sophisticated linear drainage. The exact slope required for this is already shaped permanently into the floor elements. The drain is also completely integrated with the Fundo Plano Linea.

#### + wedi Fundo sealing set

The sealing set to create a waterproof connection between wedi building boards or wedi Fundo and other materials not belonging to the system, e.g. screed, plasterboard, etc.

# Turning

Besides the countless Fundo floor systems and the system components required to install these, wedi also offers a variety of creative design options for your whole bathroom.

Please turn the brochure by 180 degrees and leaf through it from back to front. Let us also turn your bathroom literally "upside down".

# quiod

#### ...wedi°

The wedi Nonstep Plan impact sound insulation is a thin-layered rubber granulate mat with a flexible, mineral coating, which is used to achieve a decoupling effect under ceramic floorings, laminate or finished parquet.

#### wedi Noustep Plus

The wedi Nonstep Plus impact sound insulation is a 6 mm wedi building board, which is joined to a 5 mm rubber mat during manufacture so that a stepped profile bond is created. The impact sound insulating panel is used to create a decoupling effect under ceramic flooring, laminate and finished parquet. This thin-layered impact insulation particularly shows its strength in 2-storey houses, public buildings and apartment blocks.

# IMPACT SOUND INSULATION

#### wedi Fundo Primo Easy Set

With this simply complete set, flush-to-floor wedi Fundo Primo showers can be quickly and easily adjusted to the right height – without any laborious filling with mortar and screed. Be it a platform solution or classic lining, the total installation height of the Fundo Primo Easy Set plus Fundo floor element is 14 cm.

# SUBSTRUCTURES

# DRAIN COVERS

#### wedi Fundo Fiuo

wedi offers a multitude of covers especially for the Fundo floor elements – from classic to modern to covers made of solid stainless steel.

#### ...wedi<sup>®</sup>

# WALL DRAIN

#### wedi Fundo Riolito Discreto

The absolutely innovative Fundo Riolito Discreto literally tops the tried-and-tested Riolito. As a simple fixture, this clever innovation creates the illusion of a wall drain. The fixture can be easily expanded in all directions. Whether as a seat, shelf or a complete false wall – there are no limits to the design ideas with these system components.

# END PROFILES

#### wedi Fundo Riolito wall and floor profile

When installing flush-to-floor showers, it quickly becomes necessary to adapt the wall or floor tiles to the gradient of the floor element. Thanks to the wedi gradient profiles, which have been developed especially for the wedi Fundo Riolito floor elements, the laborious bevelling and cutting of tiles becomes a thing of the past. The gradient profiles are simply anchored into the adhesive bed and fill the exact space between the installed wall and floor tile and the Fundo Riolito floor element.

## SHELVES & STORAGE

# wedi Meusolo-L & -U Even in showers, shelving and niche solutions are extremely popular and also very practical. As well as the extra space for implements of all kinds, you can place a slight emphasis using design and lighting.

# SEATING SOLUTIONS

#### wedi Sanoasa Bellina

The Sanoasa benches are available in so many different designs that you can build virtually any combination of seating. Whether it's straight benches or clean connecting solutions, they will place an emphasis in any bathroom or spa facility by the time the tiling has been completed.

# wedi Fundo Naufilo wall element Extraordinary shower shapes in your own bathroom? But of course! wedi offers a variety of systems with floor and wall elements. Square, round or shell-shaped – always the right idea to suit any space and any taste.

## WALL ELEMENTS

#### wedi Moltorowo

With the modular wedi Moltoromo system, a variety of wall shapes can be sensationally created for different bathroom and spa uses. Round shapes, corner solutions and wavy lines are quick and easy to fit. There are no limits to the design with tiles, plaster and other finishes.

## Partition Walls

The large-scale building board are particularly characterised by their extraordinary width of up to 1.20 metres, making them ideal for use as free-standing walls. The building board XL and XXL combine all the advantages of the classic wedi building board and are particularly light-weight and easy to use, despite their size.

#### wedi building boards

The versatility of wedi building boards is unique. Whether a complete bathroom, individual washbasin, creative shower structure or special individual piece, ideas take shape with the building board from wedi. Without any loss of function or guarantee, these building board can be tailored to any desired format and form, offering unbroken thermal insulation and waterproofness in one.

# On offer from wedi INSIDE!

The principle of wedi INSIDE is very simple: high-quality ceramic coverings require an absolutely secure foundation. For this reason, tradesmen have relied on the unique wedi quality for decades, especially under tiles. 100 % watertight and that is absolutely certain – guaranteed by wedi!

# Many questions, one answer: wedi

When renovating your bathroom and especially when selecting the right shower, there are some important questions that need answering. Does an accessible and therefore suitable for elderly people flush-to-floor shower make sense? Do you want a point or linear drainage system? Would a wall drain be attractive for you? Will the shower have a standard size or can it be custom-made? And last but not least, what accessories do you need and what are the options available for the implementation of design ideas?

In this documentation, you will find the answers to all the important questions as well as the certainty of having found the best possible overall solution for any requirement with wedi systems.

#### Comfortable

All Fundo floor elements are perfectly suited as an underlay for tiles. As well as individual design, they provide long-lasting warmth and a pleasant underfoot feeling when combined with tiles as the top covering.

#### Accessible

The flush-to-floor Fundo shower elements from wedi combine puristic design perfectly with a high functionality and allow young and old to enjoy limitless bathing enjoyment – without any tripping hazards or sharp corners.

#### Individual design

As they are flush to the floor, the Fundo series offers an enormous amount of design options: from optical enlargement of the bathroom with continuous tiling through to the individual design of your shower with extras, such as niches, storage and seating areas..

#### Low maintenance

One wipe and it's all clean. Because all Fundo floor elements are flush-to-floor, making the cleaning of the bathroom floor much simpler. Combined with tiled shower walls, e.g. using the wedi XL structural panel as a basis, cleaning the walls is also child's play.

# A shower experience of a very special kind Tileable, accessible and with a modular design
